

Job Opening

SUPPLIER DEVELOPMENT QUALITY MANAGER

Country	<i>France</i>	Site	<i>DEFTA SERVICE</i>
Duration	<i>Permanent</i>	Functional Area	<i>Quality</i>

DEFTA is a major player in the metal parts creation industry. We design cutting-edge solutions for the automotive sector as a Tier 1 supplier and more broadly in the industrial sector, responding to the most complex challenges with ever more innovative methods.

With its 1,000 employees, DEFTA has a strong presence in Europe (France, Spain, Slovakia and Romania) and aims to continue its growth by constantly opening up to new markets and continuing to develop.

Missions & Responsibilities :

- ✓ Support the purchasing department in the choice and approval of all new suppliers by carrying out audits
- ✓ Support the Central Purchasing Department in the development of quality purchasing procedures
- ✓ Manage recurring complaints and reminders in terms of quality and improvement of control procedures
- ✓ Conduct approval audits for all new suppliers likely to enter the Defta Procurement panel
- ✓ Follow action plans for at-risk suppliers and suppliers with a C and D rating
- ✓ Participate in meetings proposed by the purchasing department
- ✓ Lead improvement processes that aim to develop suppliers in order to achieve quality objectives

Skills & Educational qualifications (R) Required (P) Preferred

Educational Qualifications :

- ✓ Bac+5 Engineering School or equivalent
- ✓ 5 years of experience in supplier quality management in industry (automotive, mechanical, aeronautics)

Skills :

- ✓ Strong practice and mastery of VDA 6.3 or FIEV 2.0
- ✓ Good knowledge of ISO and IATF standards
- ✓ Strong practice with quality troubleshooting tools (8D, 5W, PDAC, ISHIKAWA)
- ✓ Mandatory English language proficiency
- ✓ Results-oriented and strong communication skills
- ✓ Ability to impose your point of view on suppliers and the Defta Purchasing department.
